

Community of Practice within Atopic Eczema Community

2024 Topic: Collaborating with Health Care Providers

Communities of Practice are formed by people who engage in a process of collective learning. The strategic value of Communities of Practice lies in the depth of participants' reflection and inquiry, and how they put co-created knowledge into practice.

Opportunities:

- Tackle complex problems
- Knowledge sharing
- Collaborative work

Potential Objectives of this Community of Practice:

1. Understanding how HCPs make decisions
2. Learning how medical societies work
3. Helping patients speak so HCPs will hear them
4. Understanding how guidelines and payment structures influence HCPs
5. What advocacy work would make HCPs able to provide better care

A Successful Community of Practice is Possible with:

1. A dedicated group of members
2. One or two group leaders
3. Members eager to ask questions and share experiences
4. A clear goal to be achieved

Why Join this Community of Practice?

- Collaborating with colleagues working on advocacy for patients with atopic eczema
- Opportunity to tackle a specific problem identified by the group
- The chance to share and learn from each other's experiences

What to Expect During Our First Meeting (March 13, 2024 9am ET / 15:00 CET):

- Determine one or two leaders
- Determine a focused interest within the topic of collaborating with HCPs
- Determine one or two objectives for the group's focus
- Determine frequency of meetings and methods for resource sharing

Please contact Stephanie Miller (stephanie.miller@globalskin.org) to express your interest.
